# GREAT CHANCES

Members of Ladies' Literary Club Lieut. G. L. Carden Sees Them in Commercial Invasion of Europe.

Plan No. 1 contemplates an extension by the addition of a second story, with a complete remodeling of the present building and suitable improvements in the front. The auditorium thus gained would give a seating capacity of approximately 1900 and would furnish a large and commodious dining room below. This would enable the club to entertain on a larger scale than has ever been possible within its own doors, and would also provide for a rapidly increasing membership. The outlay would be something less than 1812,000, and as the club property is now free from debt, it would be considered a valuable asset in the raising of the contemplated amount. Plan No. 2, which is not considered feasible by many membership and south to Genoa.

BIG LAND DEAL IS PENDING

FOR AMERICANS Canadians Propose to Sell Sixty-Six
Thousand Acres of Ranch Property in Alberta to Church.

erty in Alberta to Church.

There is a hitch in the proposed sale of the Cochrane ranch company's tract of 66,000 acres of land in Southern Alberta to the Mormon church, but it is believed an agreement for the transfer will be reached in a few days.

The immense tract is wedge shaped and lies between other tracts owned by the Mormons, and would doubtless prove of great value to them for colonization purposes. The price at which it is offered is \$6 per acre or a total of \$396,000 cash.

General Manager H. A. Mullims, Ernest B. Cochrane and Charles M. Holt have been in the city several days as the representatives of the Cochrane Ranch company and have been negotiating with President Joseph F. Smith and other high officials of the Mormon church for the sale of the land. Cochrane is a director in the company and Holt is its attorney. They came to Salt Lake prepared to close the transaction and expected to do so, but negotiations have been prolonged. The hitch is said to be over the title.

There are 12,000 head of cattle on the property which will not be transferred with it, but will remain in possession of the company and will be driven off and sold as soon after the transfer is effected as may be convenient.

There is a third proposition before the club, although it was not formulated yesterday, and that is to dispose of the present holdings and build a new building in a different location, which shall give ample accommodation for the entire needs of the club. This may be done instead of adopting either of the plans submitted, for the general opinion of the members seems to be that if indebtedness is to be incurred, this would be the more satisfactory course in the long run.
